Subject: RI Section 10; Revised Draft RLSO for Discussion Purposes

Kristine,

Attached please find Sections 10.1 and 10.2 for your review. To generate these files, we first accepted all RL/SO received from EPA on December 23rd and then redlined those versions with proposed final revisions. Note that we added some new comment bubbles to explain our rationale for the proposed changes, but we not the delete the older bubbles that address issues we have resolved as we find those bubbles useful as a record of the Section 10 issue resolution process. Obviously, once we agree on the final text, all bubbles will be deleted and all text will be reformatted.

Our suggested edits are rather limited, therefore we propose shifting our in-person meeting tomorrow in Olympia to a conference call (we likely would not need more than 90 minutes to go through these proposed edits). Please let us know if you are on-board with a conference call, or if you prefer to keep the in-person meeting.

Thanks,

Jim McKenna
